Print of Tradeshow Marketing Assets

The Cancer Coalition of Quebec is an advocacy group representing people affected by cancer regardless of ethnic or financial background.

Having done their rebranding, we designed and delivered on the printing of their marketing assets which are used in over 20 events per year. These included Banners, Handouts, Flyers, Brochures, Program Guides, Lanyards and more.

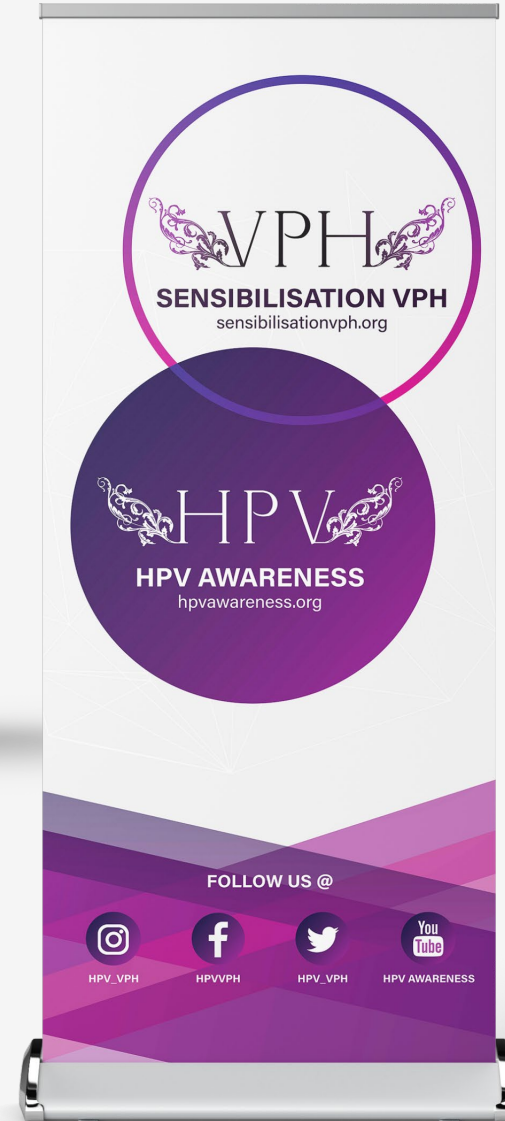

• • Printing of Outer & Inner Packaging and Marketing Inserts

The Coffee Box is a Subscription Based Coffee Shop providing specialty coffee to patron's doors via delivery.

The project included creating the packaging designs, shipping box design and design of marketing material for shipments. The challenge included a design that wouldn't make printing costs prohibited while remaining simple, sustainable, and reflect its start-up roots.

Printed In-Class Marketing Materials

HPV Awareness is a National, bilingual, registered charity established in 2002, empowering Canadians to make informed healthy choices about their relationships and sexuality.

All designs were carefully crafted to be gender neutral and resonate with students across Canada. Products designed are printed for use in over 50 events per year and include Banners, Flyers, Brochures and document packets.

• • **Printed Marketing & Tradeshow Materials**

Milo Animal Licensing markets to municipalities and pet management organizations.

We applied the Corporate Branding designed by Blu Creative to their trade-show marketing assets.

We delivered Brochures, Flyers, Business Cards, Coroplast Signs, Banners and Trade-Show Stands for their Tradeshow participation.

Printing of Marketing Materials

LoanLogik is a SaaS-based Financial Client Relationship Manager (CRM) with added flexibility tools like Payment processing, ACH/EFT features and Smart Contracting.

Marketing Assets were created based on their Corporate Branding that included a modern, clean and cutting-edge design that is necessary in the FinTech space. These assets were printed for their trade-shows on 4-color process presses.
